

BlockSettle

Getting Started with Bitcoin Trading

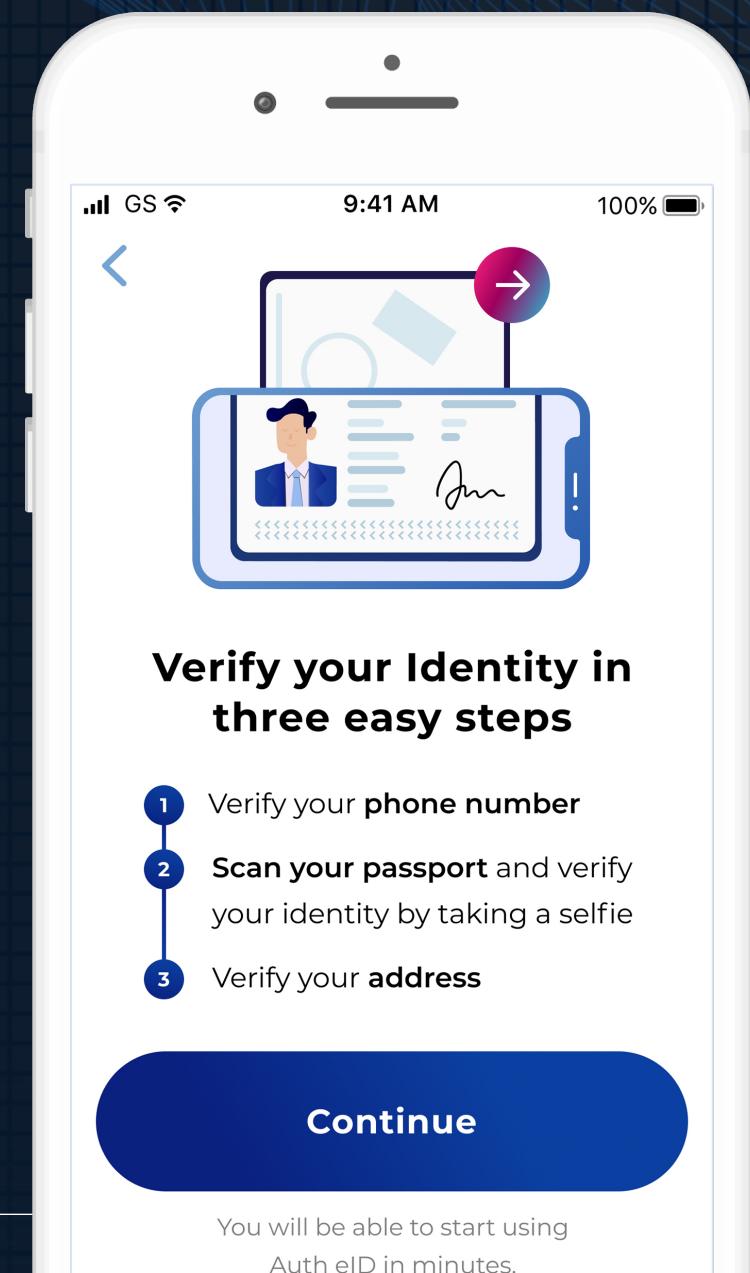

Why BlockSettle?

- Security and efficiency are at the heart of what we do
- Unlike centralised exchanges, our Participants:
 - Control their own keys and bitcoin balances at all times
 - Have access to real-time peer-to-peer bitcoin settlement
- We hope you will enjoy the benefits our model offers

Let's Get Started!

Download Auth eID

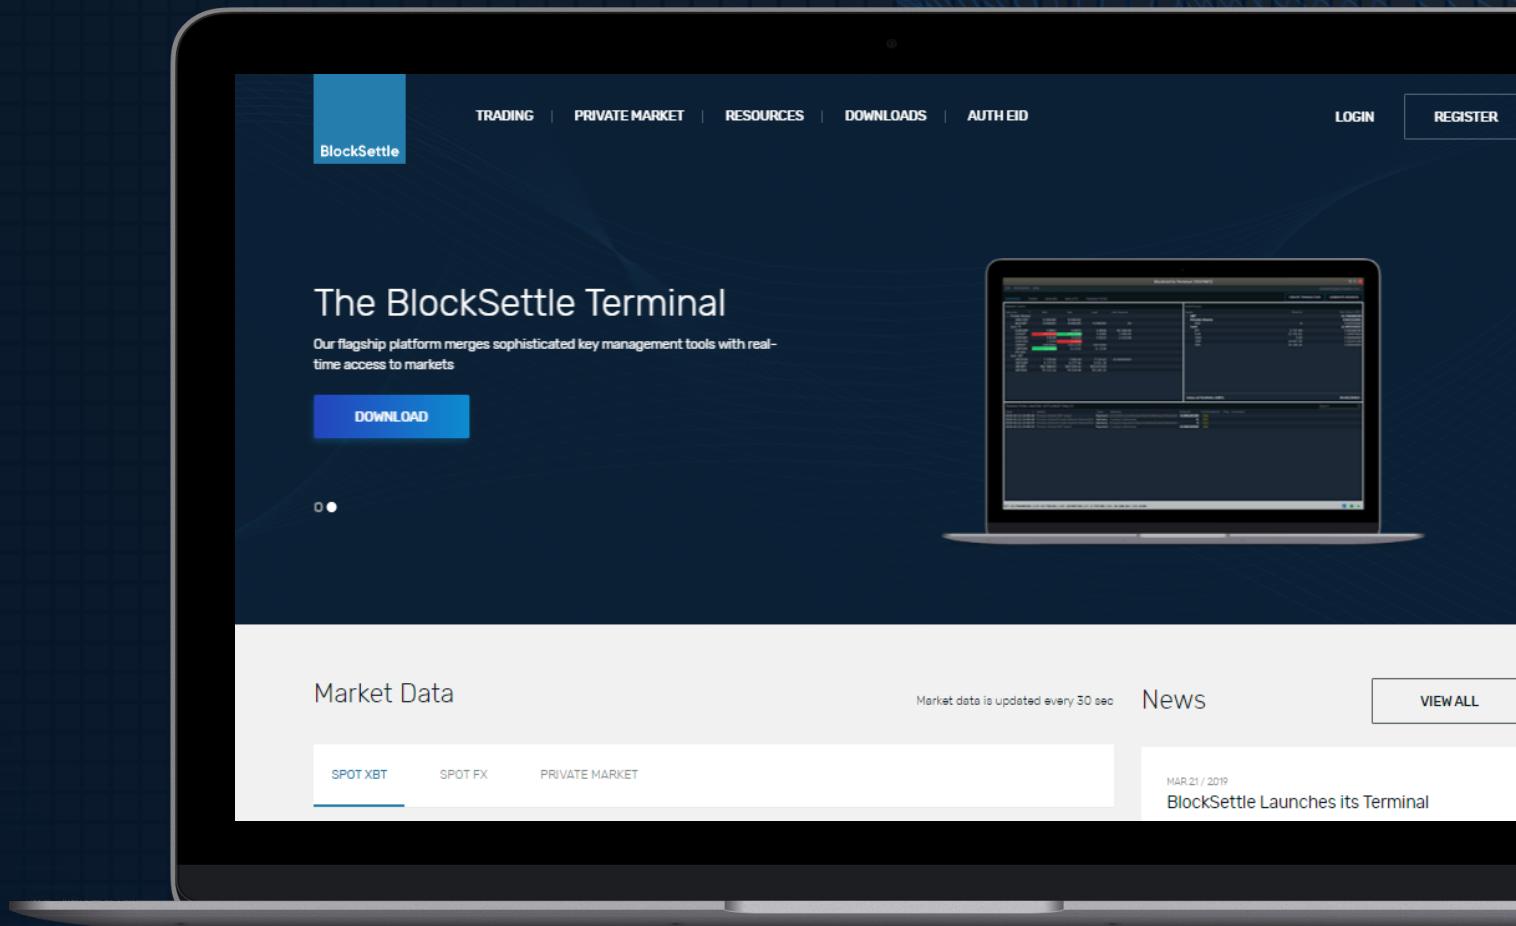

- BlockSettle requires the Auth eID app in order to create an account
 - Download the app and verify your identity in three easy steps
 - Wait for the confirmation email from Auth eID once verified
- * For corporate clients, an authorised signatory is required to use Auth eID to create the account

Create your BlockSettle Account

Once verified with Auth eID:

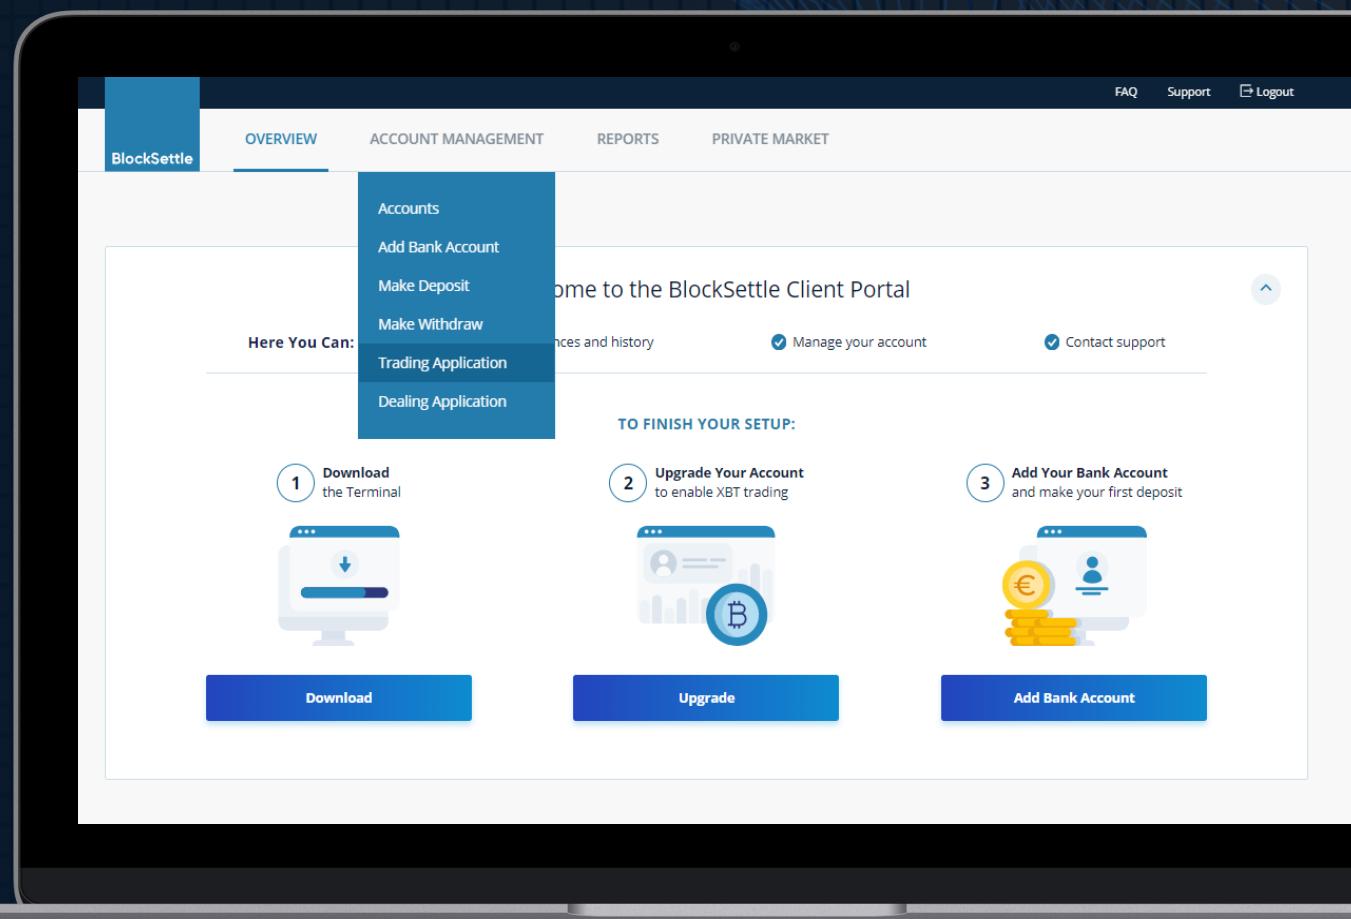

1. Visit blocksettle.com
2. Select [Create Account](#)
3. Sign with Auth eID

Complete Trading Application

1. Login to Client Portal on blocksettle.com
2. Under Account Management, select **Trading Application**
3. Complete application
4. Await approval email

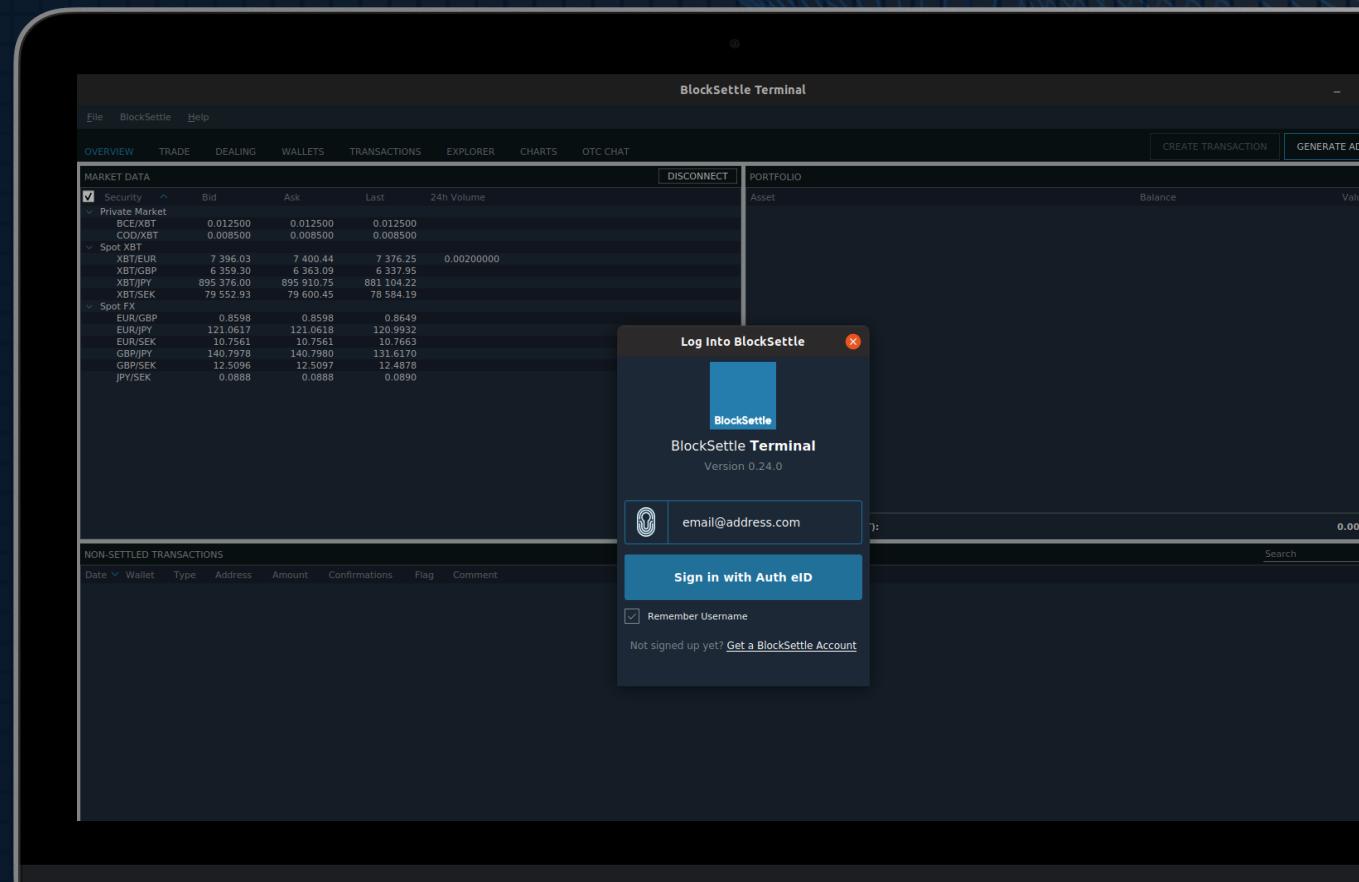

It generally takes 24h for BlockSettle to review your application

Terminal Setup

Installation

1. Download the Terminal:
blocksettle.com/downloads
2. Create Wallet or Import Existing
3. Login with Auth eID

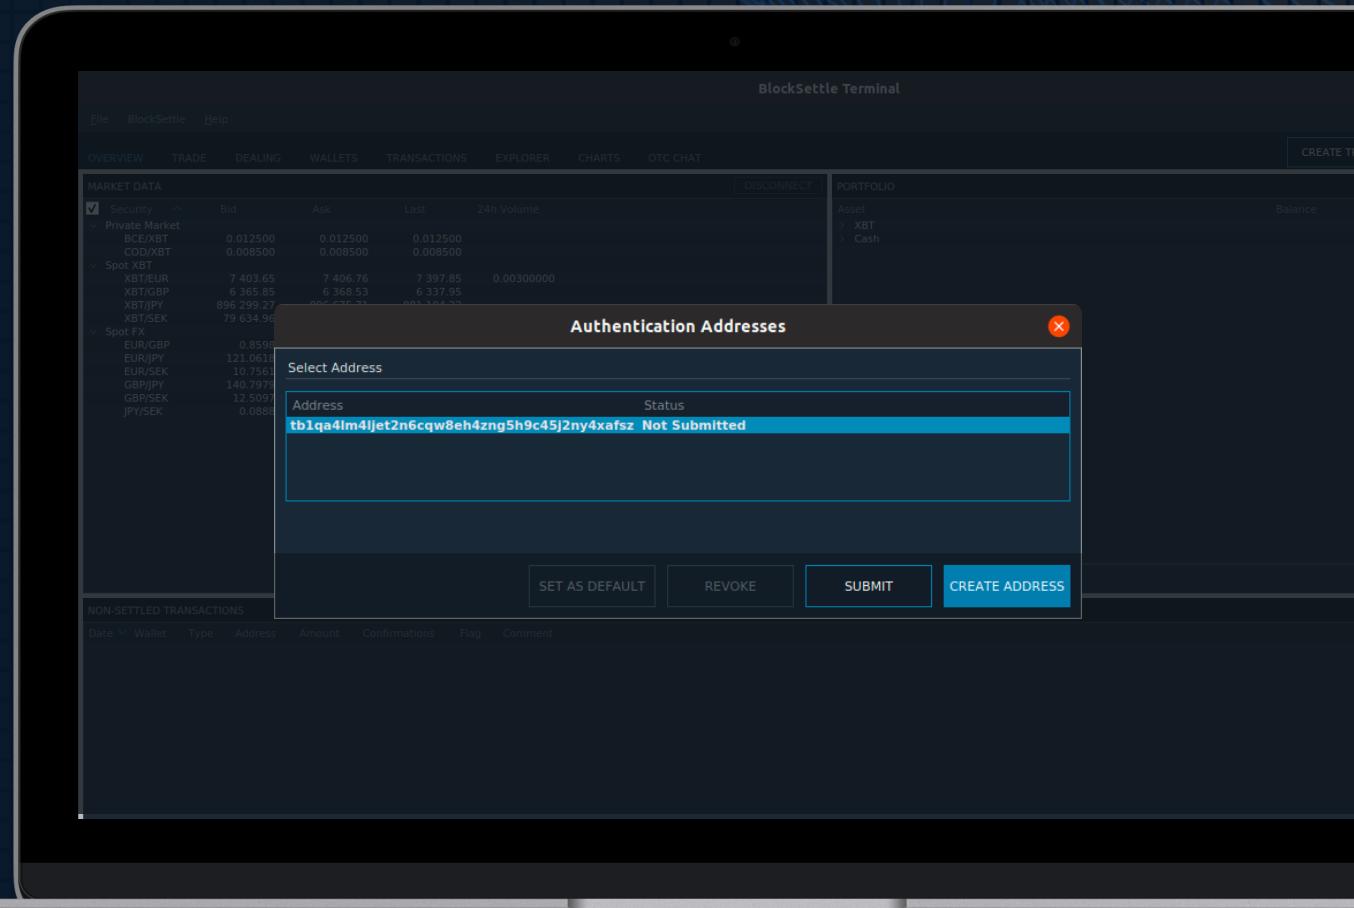

Terminal Setup

Authentication Address

Required to trade bitcoin, an Authentication Address verifies you as a BlockSettle Participant in the Trading Network.

1. Terminal menu, under BlockSettle, Select [Authentication Addresses](#)
2. Create, Select and Submit
3. Sign with Auth eID
[Allow 24h for BlockSettle to validate by funding your Authentication Address](#)

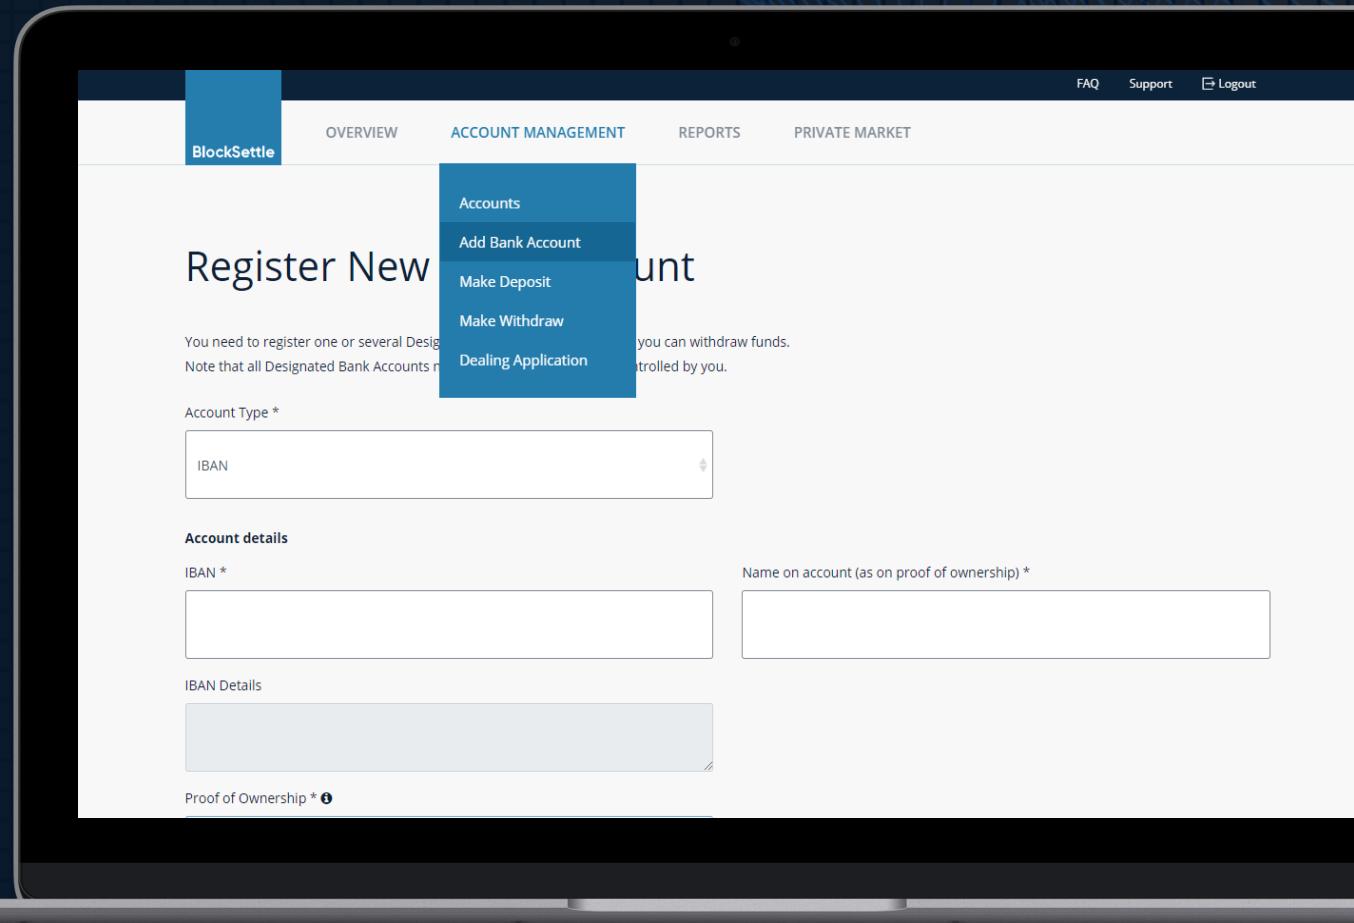

Cash Funding

Register Bank Account

1. Login to Client Portal blocksettle.com
2. Register the bank account(s) you will use for funding and withdrawals
 - Account Management -> Add New Bank Account
3. Await approval email

Our Ops Team will review and register the account(s)

Cash Funding

Make Deposit

Once verified, you can make your initial deposit.

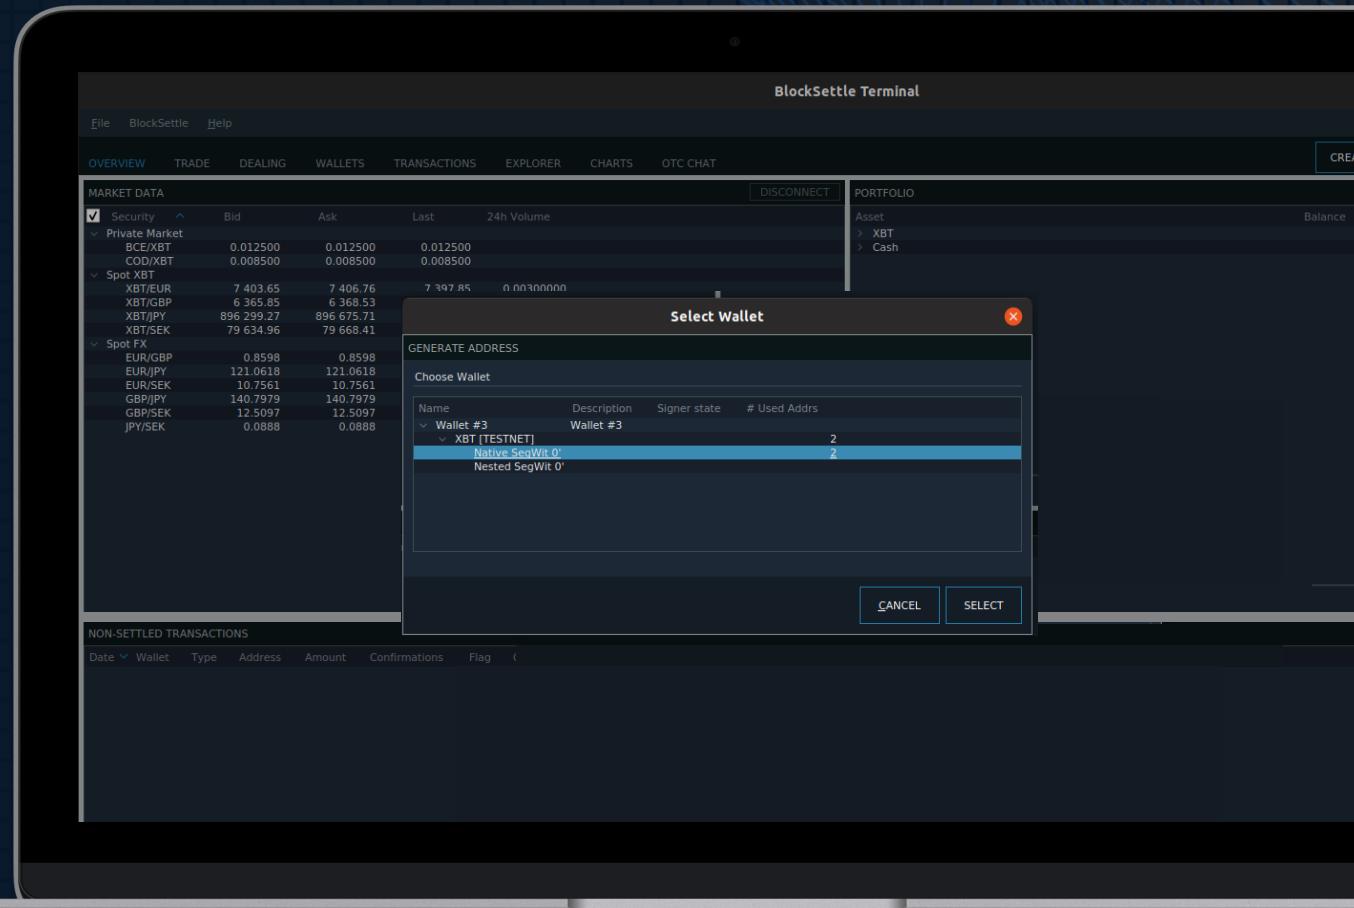

1. Login to Client Portal blocksettle.com
2. Get your Unique Deposit Reference (UDR) through
 - Account Management -> Make Deposit
3. Conduct wire transfer through your bank

Uniquely associated with your account, always reference the UDR when making deposits

Funding Your Wallet with Bitcoin

If you have the intention to sell bitcoin, fund your wallet.

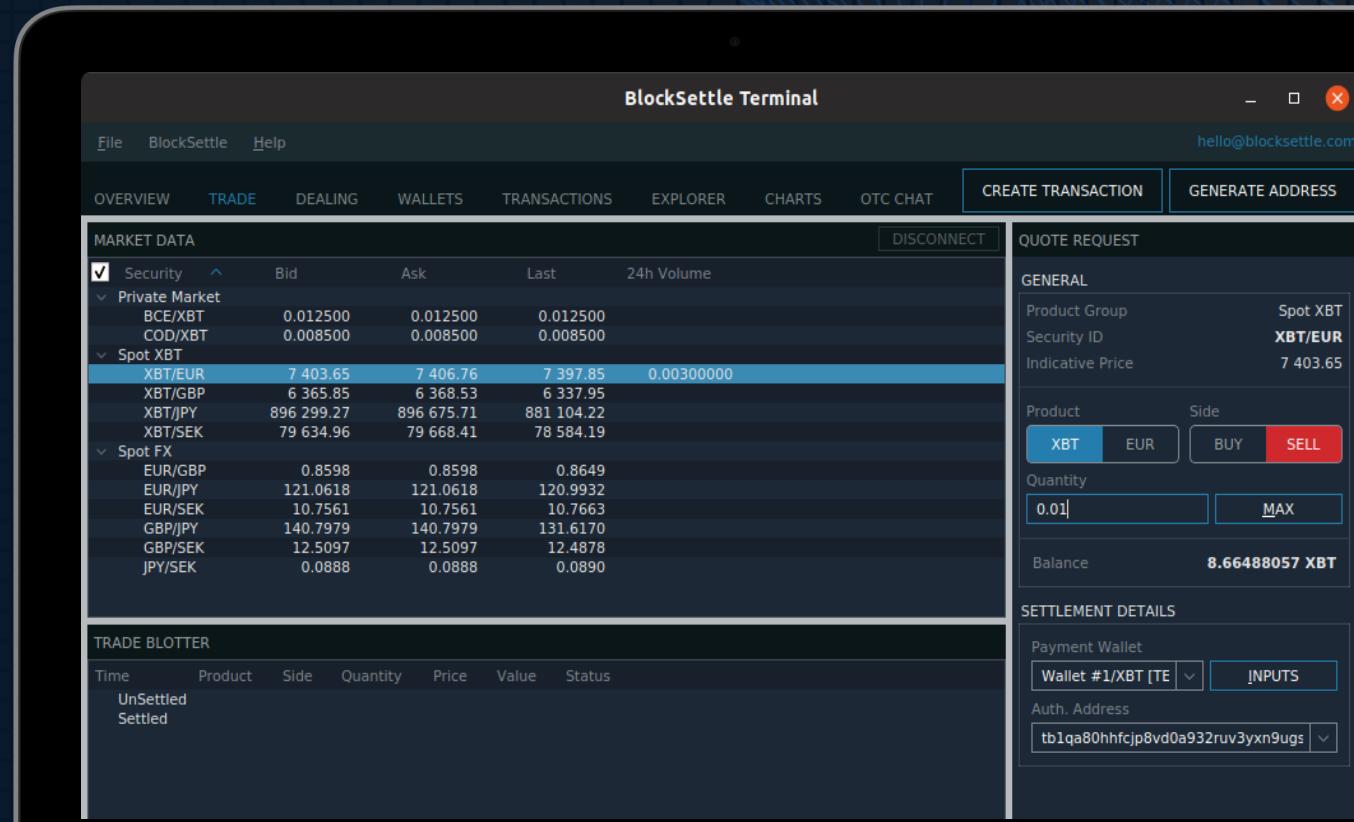

1. Generate Address
2. Choose Native or Nested and press Select
3. Use the Generated Address to receive bitcoins to your wallet

Bitcoin Trading

Submit a Request-for-Quote (RFQ)

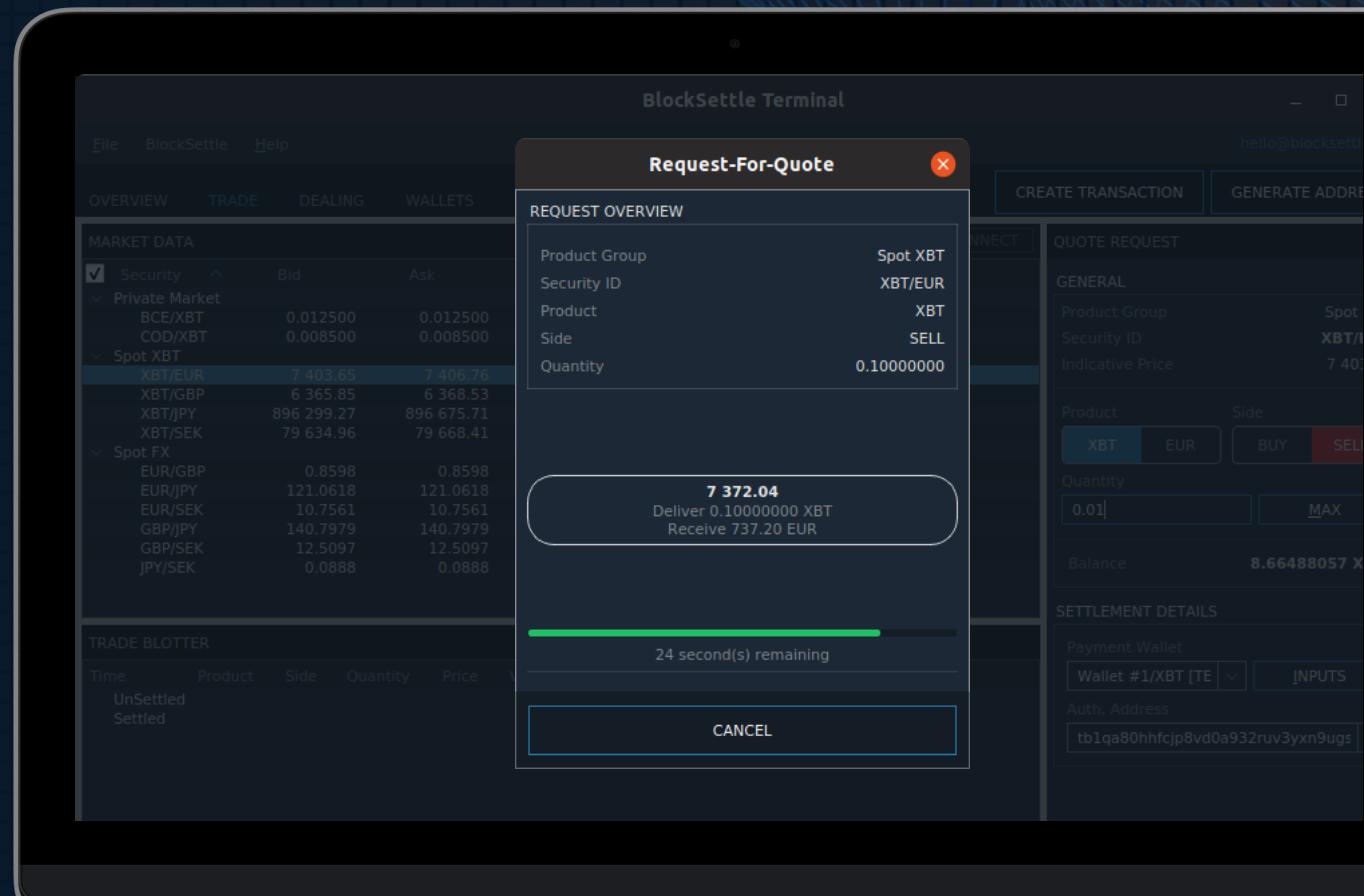

1. Go to the TRADE tab
2. Click on a Product group in the Market Data section
3. Choose Buy or Sell XBT
4. Enter the amount
5. Press Submit RFQ

Bitcoin Trading

Receive Quote Response

1. Dealing Participants may now compete to provide you with the best possible response to your trading interest
2. The responsive quote period is 30 seconds
3. You can follow the pricing updates in the RFQ window

Bitcoin Trading

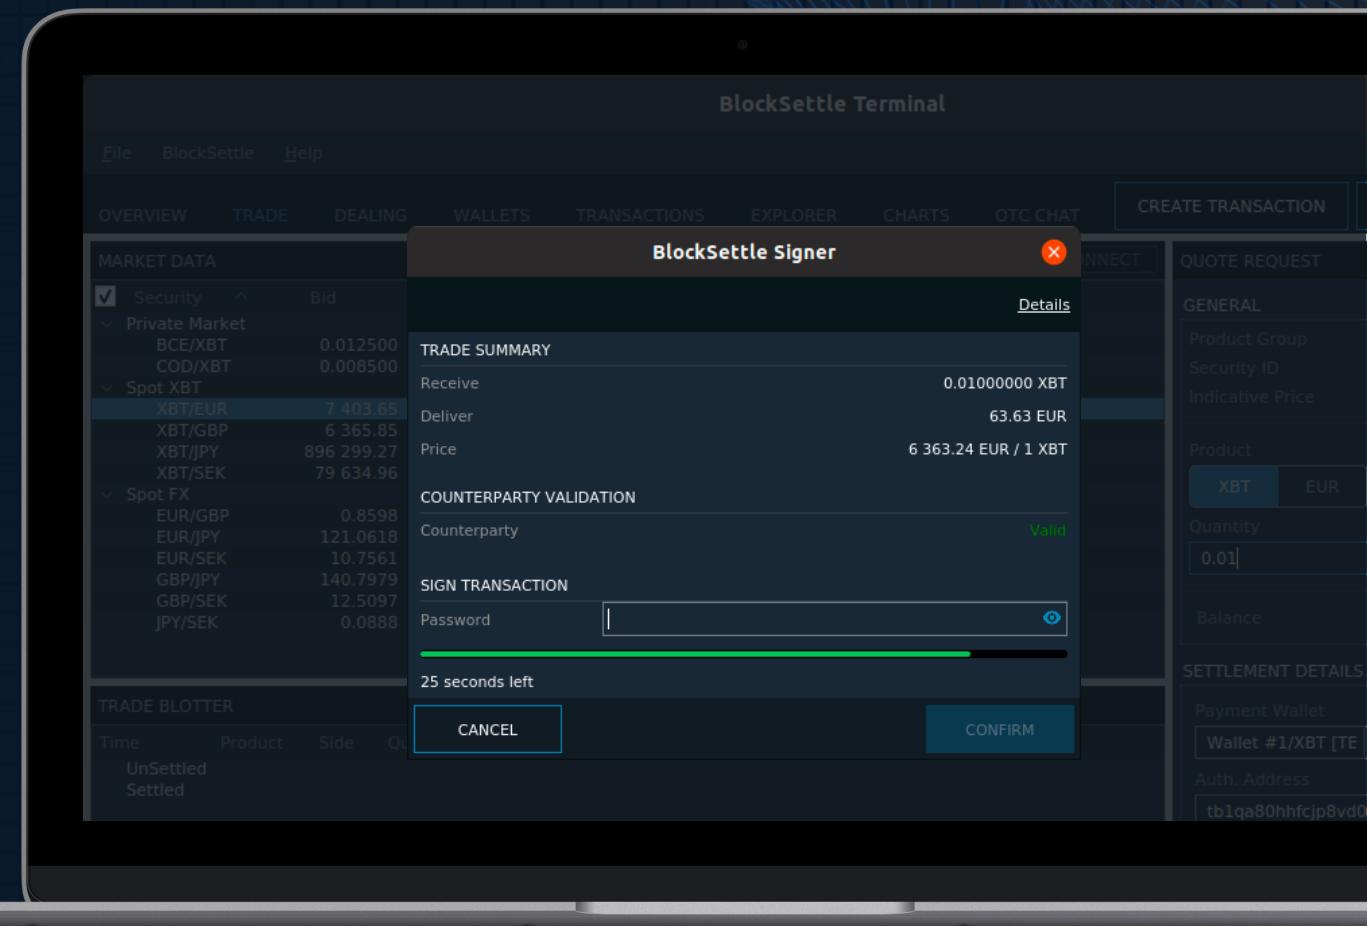

Once the 30s have lapsed the Settlement Execution window with highest quote appears

1. Press cancel if you do not wish to trade
2. Sign transaction if you want to complete the trade

For those with password encryption: enter password and press confirm

For those with Auth eID encryption: sign on your mobile device

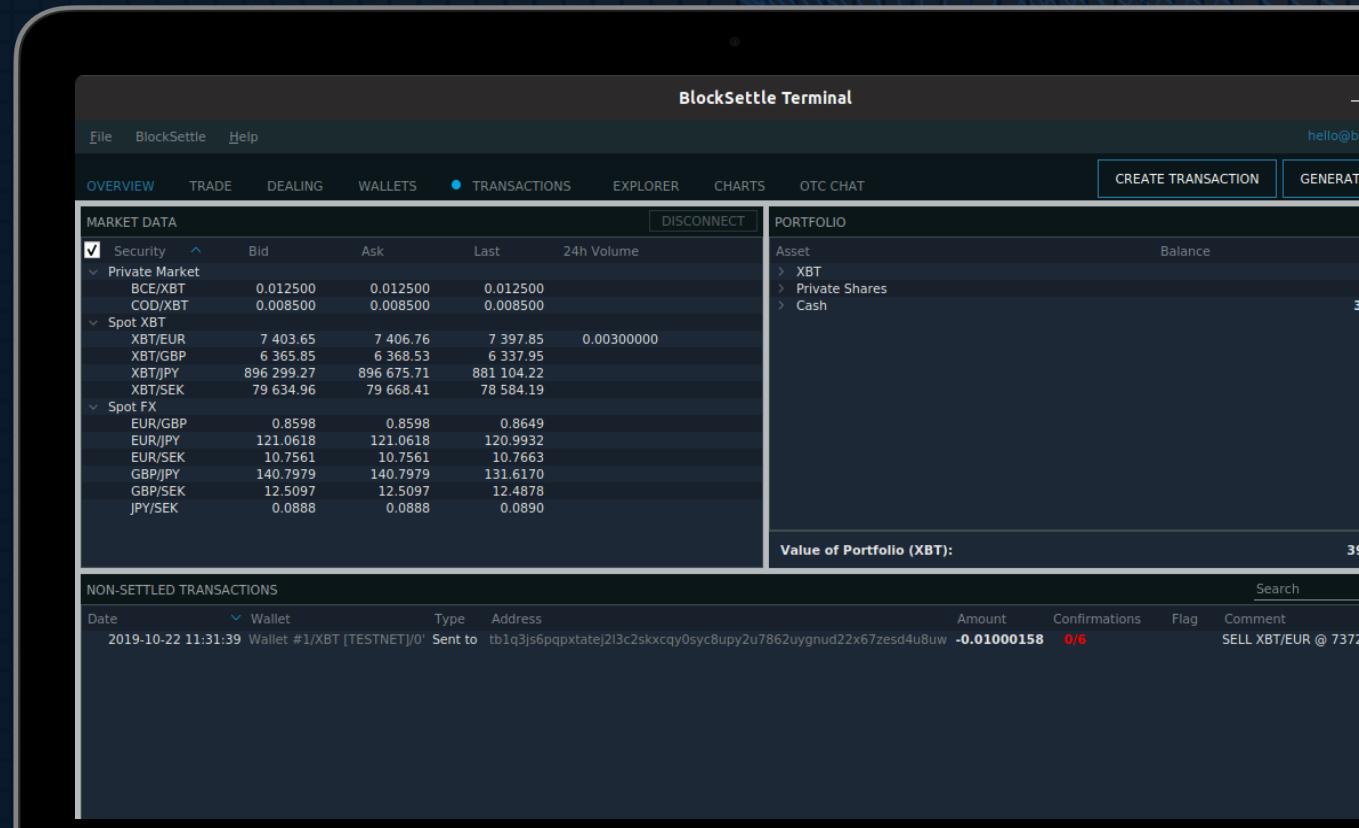

3. Both parties have 30s each to accept/sign the transaction in order to initiate the peer-to-peer settlement of bitcoin

Settlement Finality

Once both parties have signed the transaction, BlockSettle broadcasts the transaction on the bitcoin blockchain.

After six blockchain confirmations, BlockSettle settles the cash leg on each Participant's respective account.

Support

We are here to support you.

You may reach us in the following ways:

1. Raise a support ticket in the Client Portal (login and then you will find the support section top right)
2. Email us at support@blocksettle.com
3. Reach out to the community on the Public Chat within the Terminal

Thank You!
